1. Purpose / 本公告目的

This notice is issued by ADLINK Technology Inc. ("ADLINK") to all customers operating HPERC products based on the Intel Kaby Lake platform in the European Union. It fulfils ADLINK's notification obligations under Article 14 of the EU Cyber Resilience Act (CRA, Regulation EU 2024/2847) and the NIS2 Directive (2022/2555).

本公告由 ADLINK Technology Inc.（下稱「ADLINK」）向所有在歐盟境內使用 Intel Kaby Lake 單晶片平台 HPERC 產品之客戶發布，旨在履行 EU《網路韌性法》（CRA，法規 2024/2847）第 14 條及 NIS2 指令（2022/2555）規定之通知義務。

ADLINK hereby formally declares the End-of-Security-Support (EoSS) date for all affected Kaby Lake-based HPERC products as 10 July 2026. After this date, no further security patches, BIOS updates, or microcode updates will be issued for the affected product lines.

ADLINK 正式宣告，所有受影響之 Kaby Lake 平台產品之安全更新支援終止日期（EoSS）為 2026 年 7 月 10 日。此日期之後，ADLINK 將不再針對受影響產品線發布任何安全修補、BIOS 更新或微碼更新。

2. Background — Upstream Supply Chain Constraint / 背景說明 — 上游供應鏈限制

Intel Corporation formally designated the Kaby Lake microarchitecture as "Stopped" with respect to microcode security updates, specifically declining to provide mitigations for Spectre Variant 2 (CVE-2017-5715) and subsequent speculative-execution vulnerabilities. This decision was communicated via Intel's official Product Discontinuation Notice (PDN

Intel Corporation 透過正式產品停產通知（PDN）宣布，Kaby Lake 微架構之微碼安全更新狀態列為「Stopped」，明確拒絕提供幽靈漏洞變體 2（CVE-2017-5715）及後續推測執行漏洞之緩解修補。

As a downstream manufacturer, ADLINK is technically unable to provide microcode-level security patches independently of Intel.

作為下游製造商，ADLINK 在技術上無法獨立於 Intel 提供微碼層級之安全修補。

3. Affected Products / 受影響產品

The following ADLINK active HPERC product lines are based on Intel Kaby Lake platform are subject to this End-of-Security-Support declaration. Customers should verify their specific part numbers against the table below. Products not listed should be verified with ADLINK technical support.

下列 ADLINK 產品線採用 Intel Kaby Lake 平台均受本安全更新終止公告約束。客戶應比對其具體料號與下表。未列出之產品請聯繫 ADLINK 技術支援確認。

Product Line / Part No.	Description / 產品說明	EoSS Date / 終止日
HPERC-KBL-MC	Extreme Rugged Cold Plate Mount System with Intel® Xeon® Processor and MIL-DTL-38999 Connectors	10 July 2026
HPERC-KBL-MH	Rugged Finned-Convection System with 3rd Gen Intel® Core™ i7 Processor and MIL-DTL-38999 Connectors	10 July 2026

4. Continued Service Obligations and Customer Responsibilities / 繼續服務義務範圍與客戶責任

4.1 ADLINK Obligations after EoSS Date / ADLINK 於終止日後之義務

After 10 July 2026, ADLINK's security update obligations for Kaby Lake will cease. ADLINK will not issue further BIOS, firmware, or microcode updates. Article 14 incident reporting obligations under the CRA may continue to apply to any products that remain on the EU market post-EoSS; customers are advised to consult their own legal counsel regarding continued deployment obligations.

2026 年 7 月 10 日 之後，ADLINK 對 Kaby Lake 產品之安全更新義務將終止，不再發布 BIOS、韌體或微碼更新。CRA 第 14 條事件通報義務對於仍在 EU 市場流通之產品於終止日後是否持續適用，客戶應諮詢其自身法律顧問，以確認繼續部署義務。

4.2 Customer Responsibilities / 客戶責任

Customers operating Kaby Lake-based ADLINK products in critical infrastructure or essential services (as defined under NIS2) are responsible for conducting their own risk assessments and implementing compensating controls.

在 NIS2 定義之關鍵基礎設施或必要服務中操作 Kaby Lake 平台 ADLINK 產品之客戶，有責任自行進行風險評估並實施補償性控制措施。

Customers who continue to operate affected products after the EoSS date do so at their own risk, and ADLINK shall not be liable for security incidents attributable to the abovementioned unmitigable vulnerabilities.

於終止日後繼續操作受影響產品之客戶，風險自行承擔；對於前述無法緩解之漏洞引發之安全事件，ADLINK 不承擔責任。

Customers are encouraged to document their risk acceptance decisions in accordance with their internal governance frameworks and applicable national cybersecurity regulations.

建議客戶依其內部治理框架及適用之國家網路安全法規，記錄其風險接受決策。

!!IMPORTANT NOTICE Regarding CRA Article 14 Final Report
關於 CRA 第 14 條最終報告之重要聲明

Due to the absence of any technically available corrective measure from Intel for Bay Trail, Sky Lake, Kaby Lake microcode vulnerabilities, ADLINK is unable to submit a CRA Article 14 Final Report (required within 14 days of a corrective measure becoming available) for actively exploited vulnerabilities within this product family.
由於 Intel 對 Bay Trail, Sky Lake 以及 Kaby Lake 微碼漏洞在技術上不存在任何可用之修補措施，ADLINK 無法就本產品系列中遭主動利用之漏洞提交 CRA 第 14 條最終報告（要求在修補措施提供後 14 日內提交）。

ADLINK will notify the relevant CSIRT of this technical constraint at the time of any Article 14 Early Warning or Notification submission.
ADLINK 將於提交任何 CRA 第 14 條早期預警或通報時，向相關 CSIRT 說明此技術限制。
