Important Notice

Subject	Security End-of-Support Notice
主旨	安全更新支援終止公告
Affected Models	All ADLINK COM products based on: *Intel Bay Trail (Atom E3800 Series),* *Intel Apollo Lake (Atom E3900 Series, Pentium N4200 or Celeron N3350)*
Release	2026-08-28

Manual Rev.: Rev. 1.0
Release Date: August 28, 2026
Part Number: 50M-ESCOM2-10

ADLINK

1. Purpose / 本公告目的

This notice is issued by ADLINK Technology Inc. ("ADLINK") to all customers operating COM products based on the Intel Bay Trail (Atom E3800 Series) platform, and Intel Apollo Lake platform (Atom E3900 Series, Pentium N4200 or Celeron N3350) platform in the European Union. It fulfils ADLINK's notification obligations under Article 14 of the EU Cyber Resilience Act (CRA, Regulation (EU) 2024/2847) and the NIS2 Directive (EU) 2022/2555.

本公告由 ADLINK Technology Inc.（下稱「ADLINK」）向所有在歐盟境內使用基於 Intel Bay Trail（Atom E3800 系列）平台及 Intel Apollo Lake 平台（Atom E3900 系列、Pentium N4200 或 Celeron N3350）之 COM 產品的客戶發布，旨在履行 ADLINK 根據歐盟《網路韌性法》（CRA，法規 (EU) 2024/2847）第 14 條及 NIS2 指令（EU）2022/2555 所承擔之通知義務。

ADLINK hereby formally declares the End-of-Security-Support (EoSS) date for all affected Bay Trail-based COM products, Apollo Lake-based COM products as 10 July 2026. After this date, no further security patches, BIOS updates, or microcode updates will be issued for the affected product lines.

ADLINK 正式宣告，所有受影響之 Bay Trail 平台 COM 產品及 Apollo Lake 平台 COM 產品，其安全更新支援終止日期（EoSS）為 2026 年 7 月 10 日。此日期之後，ADLINK 將不再針對受影響產品線發布任何安全修補、BIOS 更新或微碼更新。

2. Background — Upstream Supply Chain Constraints / 背景說明 — 上游供應鏈限制

Intel Corporation formally designated the Bay Trail (Atom E3800) microarchitecture as "Stopped" with respect to microcode security updates, specifically declining to provide mitigations for Spectre Variant 2 (CVE-2017-5715) and subsequent speculative-execution vulnerabilities. This decision was communicated via Intel's official Product Discontinuation Notice (PDN). Intel Corporation also formally designated the Apollo Lake microarchitecture as “Stopped” with respect to microcode security updates.

Intel Corporation 正式將 Bay Trail（Atom E3800）微架構之微碼安全更新狀態列為「Stopped」，並明確拒絕針對幽靈漏洞變體 2（Spectre Variant 2，CVE-2017-5715）及後續推測執行漏洞提供緩解措施。此決定透過 Intel Corporation 正式產品停產通知（PDN）傳達。此外，Intel Corporation 亦正式將 Apollo Lake 微架構之微碼安全更新狀態列為「Stopped」。

As a downstream manufacturer, ADLINK is technically unable to provide microcode-level security patches independently of Intel.

作為下游製造商，ADLINK 在技術上無法獨立於 Intel 提供微碼層級之安全修補。

3. Affected Products / 受影響產品

The following active ADLINK COM product lines based on the Intel Bay Trail platform, and Intel Apollo Lake platform are subject to this End-of-Security-Support declaration. Customers should verify their specific part numbers against the table below. Products not listed should be verified with ADLINK technical support.

下列 ADLINK 現行 COM 產品線採用 Intel Bay Trail 平台及 Intel Apollo Lake 平台，均受本安全更新支援終止公告之約束。客戶應比對其具體料號與下表。未列出之產品請聯繫 ADLINK 技術支援確認。

Product Line / Part No.	Description / 產品說明	EoSS Date / 終止日
LEC-BT	Short size SMARC based on Intel Baytrail	10 July 2026
LEC-AL	Short size SMARC based on Intel Apollo Lake	10 July 2026
Q7-BT	Standard size Qseven based on Intel Baytrail	10 July 2026
Q7-AL	Standard size Qseven based on Intel Apollo Lake	10 July 2026

4. Recommended Migration Platforms / 建議升級替代平台

ADLINK strongly recommends that customers plan migration to a currently supported platform prior to the End-of-Security-Support date of 10 July 2026. The following ADLINK product lines are recommended replacements based on form-factor and feature compatibility:

ADLINK 強烈建議客戶於安全更新支援終止日（2026 年 7 月 10 日）前，規劃遷移至現行受支援平台。以下 ADLINK 產品線為依外形規格與功能相容性建議之替代品：

5. Continued Service Obligations and Customer Responsibilities / 繼續服務義務範圍與客戶責任

5.1 ADLINK Obligations after the EoSS Date / ADLINK 於終止日後之義務

After 10 July 2026, ADLINK's security update obligations for Bay Trail, and Apollo Lake products will cease. ADLINK will not issue further BIOS, firmware, or microcode updates. Article 14 incident reporting obligations under the CRA may continue to apply to any products that remain on the EU market post-EoSS; customers are advised to consult their own legal counsel regarding continued deployment obligations.

2026 年 7 月 10 日之後，ADLINK 對 Bay Trail 及 Apollo Lake 產品之安全更新義務將終止。ADLINK 將不再發布 BIOS、韌體或微碼更新。CRA 第 14 條事件通報義務對於終止支援日後仍於歐盟市場流通之產品可能持續適用；客戶應諮詢其自身法律顧問，以確認繼續部署所涉及之相關義務。

5.2 Customer Responsibilities / 客戶責任

Customers operating Bay Trail-based and Apollo Lake-based ADLINK products in critical infrastructure or essential services (as defined under NIS2) are responsible for conducting their own risk assessments and implementing compensating controls.

在 NIS2 定義之關鍵基礎設施或必要服務中操作基於 Bay Trail 及 Apollo Lake 平台之 ADLINK 產品的客戶，有責任自行進行風險評估並實施補償性控制措施。

Customers who continue to operate affected products after the EoSS date do so at their own risk, and ADLINK shall not be liable for security incidents attributable to the abovementioned unmitigable vulnerabilities.

於終止日後繼續操作受影響產品之客戶，風險自行承擔；對於前述無法緩解之漏洞引發之安全事件，ADLINK 不承擔責任。

Customers are encouraged to document their risk acceptance decisions in accordance with their internal governance frameworks and applicable national cybersecurity regulations.

建議客戶依其內部治理框架及適用之國家網路安全法規，記錄其風險接受決策。

!!IMPORTANT NOTICE Regarding CRA Article 14 Final Report
關於 CRA 第 14 條最終報告之重要聲明

Due to the absence of any technically available corrective measure from Intel for Bay Trail, Apollo Lake microcode vulnerabilities, ADLINK is unable to submit a CRA Article 14 Final Report (required within 14 days of a corrective measure becoming available) for actively exploited vulnerabilities within this product family.

由於 Intel 目前未針對 Bay Trail 及 Apollo Lake 微碼漏洞提供任何技術上可行的修補措施，ADLINK 無法就本產品系列中遭主動利用之漏洞提交 CRA 第 14 條最終報告（要求在修補措施提供後 14 日內提交）。

ADLINK will notify the relevant CSIRT of this technical constraint at the time of any Article 14 Early Warning or Notification submission.

ADLINK 將於提交任何 CRA 第 14 條早期預警或通報時，向相關 CSIRT 說明此技術限制。
