ADLINK I/O Module Compatibility List for MXC-2000 Series

• Introduction

ADLINK's MXC-2000 Series provides fanless expandable embedded computers with configurable PCI and PCIe slots, delivering reliable platform solutions for a wide variety of applications. Accepting both standard PCI and PCIe cards, the MXC-2000 Series' expansion arrays enable ready integration of off-the-shelf PCI/PCIe cards for a thoroughly configurable application platform.

Currently compatible I/O modules offered by ADLINK's Measurement and Automation Product Segment are listed here. ADLINK continuously adds to the list to support more application-oriented modules.

• Compatible I/O Modules

■ PCI Bus

Vendor	Model Number	Category	Result
ADLINK	LPCI-3488A	GPIB	PASS
ADLINK	PCI-6216V	DAQ	PASS
ADLINK	PCI-7233	DIO	PASS
ADLINK	PCI-9820	Digitizer	PASS

■ PCI Express Bus

Vendor	Model Number	Category	Result
ADLINK	DAQ-2005	DAQ	PASS
ADLINK	DAQ-2006	DAQ	PASS
ADLINK	PCI-6208A	DAQ	PASS
ADLINK	PCIe-6208	DAQ	PASS
ADLINK	PCI-7296	DIO	PASS

■ PCI Express Bus

Vendor	Model Number	Category	Result
ADLINK	PCIe-7248	DIO	**PASS**
ADLINK	PCIe-7250	DIO	**PASS**
ADLINK	PCIe-7296	DIO	**PASS**
ADLINK	PCI-7300	High-Speed DIO	**PASS**
ADLINK	PCIe-7300	High-Speed DIO	**PASS**
ADLINK	PCIe-7350	High-Speed DIO	**PASS**
