ADLINK I/O Module Compatibility List for MXC-6000 Series

● Introduction

ADLINK's MXC-6000 series is a fanless expandable embedded computer with configurable PCI and PCIe x4 slots, providing an exceptionally reliable platform for a wide variety of applications, accepting standard PCI and PCIe cards. PCI and PCIe slots enable integration of off-the-shelf PCI/PCIe cards for a configurable application platform.

The following lists currently compatible I/O modules offered by ADLINK's Measurement and Automation Product Segment. ADLINK is continuously testing to add support for more application-oriented modules.

● Compatible I/O Modules

■ PCI Bus

Vendor	Model Number	Category	Result
ADLINK	PCI-7250	DIO	**PASS**
ADLINK	PCI-7260	DIO	**PASS**
ADLINK	PCI-7432	DIO	**PASS**
ADLINK	PCI-7300A	High-Speed DIO	**PASS**
ADLINK	PCI-9820	Digitizer	**PASS**
ADLINK	PCI-9846	Digitizer	**PASS**
ADLINK	PCI-9221	DAQ	**PASS**
ADLINK	PCI-9223	DAQ	**PASS**
ADLINK	DAQ-2005	DAQ	**PASS**
ADLINK	PCI-9112	DAQ	**PASS**
ADLINK	PCI-9527	Signal Acquisition	**PASS**
ADLINK	LPCI-3488	GPIB	**PASS**
ADLINK	USB-3488	GPIB	**PASS**

■ PCI Express Bus

Vendor	Model Number	Category	Result
ADLINK	PCIe-7350	High-Speed DIO	**PASS**
ADLINK	PCIe-7300A	High-Speed DIO	**PASS**
ADLINK	PCIe-7296	DIO	**PASS**
ADLINK	LPCIe-7230	DIO	**PASS**
ADLINK	DAQe-2005	DAQ	**PASS**
ADLINK	PCI-8154	Motion Control	**PASS**
ADLINK	PCI-8256	Motion Control	**PASS**
ADLINK	FIW64	Machine Vision	**PASS**
ADLINK	GIE62+	Machine Vision	**PASS**
ADLINK	CPL64	Machine Vision	**PASS**
ADLINK	HDV62	Machine Vision	**PASS**
ADLINK	RTV-24	Machine Vision	**PASS**

■ USB

Vendor	Model Number	Category	Result
ADLINK	USB-3488	GPIB	**PASS**
